ventures founded, one to exit

SUMMARY

Engineering leader and founder who builds real-time decisioning platforms at financial-services scale — decisioning engines and rules platforms on **graph databases, Rete networks, and bitmap indexes**; consumer loan decisioning, multi-lending, and pricing; and Kafka streaming at 850M+ events/day. 20+ years in distributed systems and 7+ years leading global organizations as a manager of managers. Founded and built four ventures from idea to production, including one to a successful exit. Pairs startup speed with enterprise-grade discipline in security, resiliency, and governance.

DECISIONING PLATFORM EXPERIENCE

01 Stream

Kafka pipelines and lakehouse at 850M+ events/day feeding analytics and decisioning.
Capital One

02 Rules & Decision Engines

Engines on graph DBs, Rete networks, bitmap indexes; loan decisioning, multi-lending, pricing.
Capital One · Toyota

03 AI Inference

Governed credit-risk models: +15% approvals, -20% defaults; MLOps end to end.
Toyota · Capital One

04 Decide at Scale

99.99% at 4M+ txns/day; low-latency trading where downtime is loss.
Toyota · IPC

05 Observe & Govern

SLOs, observability, model governance, policy-as-code; risk incidents ~25%.
Toyota

EXPERIENCE

Head of Technology, Banking & Commercial / Consumer Lending 03/2025 – Present
Toyota Financial Services · Plano, TX

\$185M portfolio **\$30B originations** **99.99% uptime** **3x release velocity**

- Built a commercial loan origination product **from scratch in under six months**, now supporting \$30B in originations across dealer and commercial-finance journeys.
- Own engineering vision, architecture, execution, and production accountability for core lending platforms; direct a \$185M annual technology portfolio.
- Built governed AI/ML credit-risk and CX capabilities with monitoring, auditability, and human oversight — **+15% approval rates, -20% defaults**.
- SLO-driven reliability, observability, and playbooks sustaining **99.99% availability** at 4M+ transactions/day.
- Cloud-native, multi-cloud foundations (IaC, Kubernetes, CI/CD) cutting run cost by **\$12M/yr**; configuration-driven UI platform took change cycles from one month to ~5 minutes, avoiding \$6M/yr.
- Security-by-design across the SDLC — threat modeling, IAM, policy-as-code — reducing risk incidents 25%.

Director, Software Engineering — Decisioning, MarTech & Analytics, Auto Finance 02/2016 – 03/2025
Capital One · Plano, TX

Director 2021–25 · Senior Manager 2019–21 · Manager 2017–19 · Master Software Engineer 2016–17

120 engineers **\$95M portfolio** **850M+ events/day** **\$240M+ revenue impact**

- Delivered **consumer loan origination decisioning**, multi-lending, and pricing platforms connecting policy, data, models, and APIs under regulatory and fair-lending controls.
- Built and operated **Kafka-based real-time streaming** and lakehouse platforms processing 850M+ events/day for analytics, decisioning, and personalization.
- Built AI/ML and MLOps infrastructure for model training, deployment, monitoring, and governance.
- MarTech platform strategy delivering **\$240M+** revenue impact; AWS modernization cutting spend **\$18M/yr**.

CORE STRENGTHS

Decisioning

Real-time decisioning
Rete rules engines
Graph databases
Bitmap indexes
Rules orchestration
Credit risk
Pricing
Explainability

Streaming & Distributed

Kafka
Event-driven
Low latency
Microservices
APIs
Fault tolerance
Resiliency / DR

AI & Data

Model inference
MLOps / LLMOps
Model governance
Model routing
Lakehouse
GenAI & agents

Cloud-Native & Security

AWS · Azure · GCP
Kubernetes
Terraform
CI/CD
DevSecOps
SRE & SLOs
Observability
Policy-as-code
IAM

Leadership

Engineering vision
0 → 1 building
Scaling global orgs
Cross-functional pods
Product partnership
Exec communication

EXPERIENCE (CONTINUED)

Senior Cloud Software Architect / Engineering Leader 05/2011 – 01/2016
Dell EMC / EMC Corporation · New Jersey & Texas
Petabyte scale \$25M customer savings \$11M programs

- Owned architecture for ECS, ViPR, and UIM cloud and object-storage platforms serving global enterprise and financial-services customers.
- Designed distributed, fault-tolerant, DR-ready systems with stringent throughput, latency, and durability requirements.
- Reusable patterns, APIs, orchestration, and provisioning automation generating \$25M in customer operational savings.

Frontend Engineering Leader · Principal UI Engineer 10/2009 – 05/2011
IPC Systems Inc. · Fairfield, CT

- Next-generation capital-markets trading platforms — real-time market data and low-latency execution where downtime carries direct trading loss; led a global team of 60+.

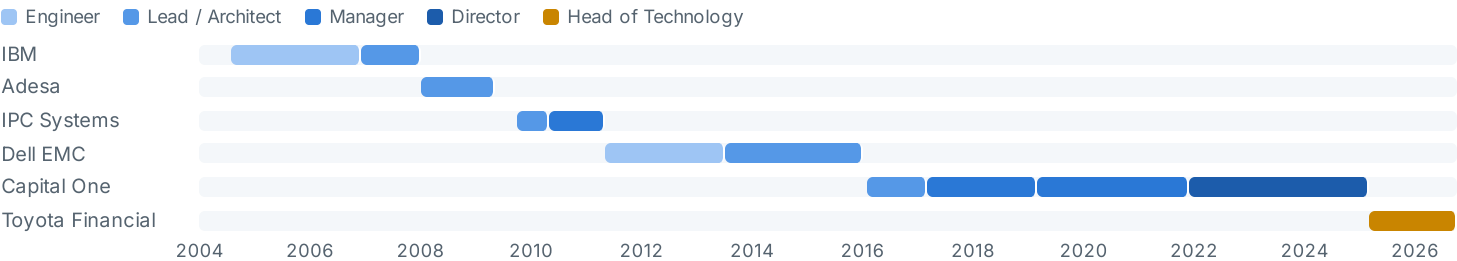

Lead Software Engineer 01/2008 – 05/2009
Adesa Inc. · Carmel, IN

- Online vehicle auction, inventory, and live auction-floor systems with real-time bidding and settlement.

Technical Lead · Senior Systems Engineer 08/2004 – 01/2008
IBM · Bengaluru, India & Bari, Italy

- ACG Express and enterprise systems on Java/J2EE, web services, CRM, and integration technologies.

CAREER TIMELINE

FOUNDER · 0 → 1 VENTURES

RunningTicker.com
Financial analytics platform, built from zero to a successful exit.

RentMitra Inc.
AI-powered rental marketplace for owners and tenants.
rentmitra.lovable.app

GingerKnife Inc.
AI-backed HomeChefs marketplace for healthy homemade food.
VantaShala.com

AlliBilli.com
All-in-one news platform designed for elderly users.
allibilli.com

HOW I LEAD

Bias for action
Decide quickly with data and customer insight; learn in short cycles.

Measurement
Instrument adoption, quality, reliability, and risk.

Ownership
Clear outcomes and decentralized decision rights — teams own results.

Transparency
Open context across product, architecture, and operations.

Guardrails
Make the safe path the easiest path: speed with enterprise discipline.

People
Autonomy, coaching, and growth for every engineer.

PATENTS & WRITING

28 of 37 issued patents as primary inventor

Distributed systems, cloud storage, resiliency, automation · [Google Scholar](#)

100+ articles

Founder & author, [ThinkSpecial](#). Speaker at Cloud Expo International, DZone Live, and executive forums.

EDUCATION

M.S., Information Systems · 2003
Nagarjuna University, Guntur, India

B.C.A., Computer Applications · 2001
Nagarjuna University, India
