EXECUTIVE SUMMARY

Technology executive with 20+ years leading enterprise platform, cloud, data, and AI/ML organizations across banking, automotive finance, and enterprise infrastructure. Proven record building and scaling global engineering teams (up to 120 engineers), delivering multi-billion-dollar platforms, and driving measurable business outcomes through pragmatic execution, strong governance, and DevSecOps discipline. Recognized authority on enterprise GenAI & agentic systems — defining AI platform strategy, model governance, and responsible-AI guardrails for regulated financial institutions. Primary inventor on 28 issued patents (37 filed); trusted advisor to CIOs and SVPs on technology strategy, risk, and digital transformation.

CORE COMPETENCIES

Enterprise & AI Platform Strategy

GenAI & Agentic Systems

LLM / Model Governance

MLOps & LLMOps

Cloud Architecture (AWS)

Enterprise Architecture

API & Microservices Platforms

DevSecOps

Security, Risk & Compliance

Data Strategy & Governance

P&L & Vendor Management

M&A Technology Integration

Global Engineering Leadership

Digital Transformation

PROFESSIONAL EXPERIENCE

Head of Technology — Commercial Lending

Toyota Financial Services · Plano, TX

- Directed a two-year technology modernization roadmap and delivered a brand-new \$30B commercial loan origination platform.
- Rebuilt the Loan Origination System from scratch in under six months; designed a configuration-driven UI engine that cut change cycles from one month to five minutes.
- Built an AI/ML platform for credit risk and customer experience, driving a 15% lift in approval rates and a 20% reduction in defaults.
- Implemented AI governance controls and monitoring, ensuring regulatory compliance and reducing risk incidents by 25%.
- Tripled release velocity through end-to-end DevSecOps and API automation across multi-cloud infrastructure.

Director, Software Engineering — Marketing Technology & Analytics

Capital One · Plano, TX

- Led Capital One's software engineering teams, driving innovation and operational excellence across consumer lending and marketing platforms.
- Set MarTech strategy that eliminated Adobe vendor lock-in, elevated data governance, and delivered \$240M+ in revenue impact.
- Built an AI/ML-driven Marketing Technology & Analytics platform, enhancing customer targeting and engagement.
- Built decisioning consumer loan origination systems and multi-lending & pricing platforms.

Sr. Cloud Software Architect / Engineering Leader

Dell EMC (EMC Corporation) · Berkeley Heights, NJ

- Designed and led architecture for ECS, ViPR & UIM — hybrid cloud storage products adopted by global enterprises.
- Designed scalable, fault-tolerant, HA & DR-ready cloud architecture; led \$11M projects against a two-year roadmap.
- Earned 28 of 37 filed patents as primary inventor for distributed systems and storage innovation.

Frontend Engineering Leader

IPC Systems Inc. · Fairfield, CT

- Built next-generation trading platforms with real-time data and low-latency execution.
- Led a global team of 60+ engineers, ensuring round-the-clock development; established coding, design, and architectural standards adopted enterprise-wide.

Lead Software Engineer

IBM / Adesa Inc. · Bengaluru, India · Bari, Italy · Carmel, IN

- Delivered complex applications managing vehicle inventory from 12 vendors, displaying live auction floor data; built full-stack web applications for online auction rollover processes.
- Built ACG Express and Adesa's online auctioning systems.

PATENTS, PUBLICATIONS & THOUGHT LEADERSHIP

Patents

28 patents issued (of 37 filed) as primary inventor in distributed systems, cloud storage, and automation — [Google Scholar](#).

Speaking

Cloud Expo International, DZone Live, Enterprise Executive Summit — talks on distributed leader-election algorithms and scalable cloud architecture.

Writing

Founder & author, [ThinkSpecial](#) — 100+ articles on technology, leadership, and innovation.

Press

Featured in Industry Today ("Drone Performance Enhanced by New Software Capabilities") and Enterprise Executive on distributed-systems leadership.

BOARD, ADVISORY & VENTURES

RunningTicker.com — Founder, Financial analytics platform (successful exit).

GingerKnife Inc. (VantaShala.com) — Advisory Board Member/Founder, AI-backed HomeChefs marketplace for healthy homemade food.

Mentor, Women in Technology & STEM Leadership initiatives. Advisor to early-stage AI startups in health and food tech.

RentMitra Inc. — Advisory Board Member/Founder, nationwide rental marketplace connecting property owners and tenants.

AlliBilli.com — Founder, all-in-one news platform for elderly users.

EDUCATION & CERTIFICATIONS

M.S., Information Systems — Nagarjuna University, Guntur, India · **B.S., Computer Applications** — Nagarjuna University, Nandigama, India · **Certifications:** AWS Certified Solutions Architect, SAFe, Java
